If you had a superpower, what would it be?
The ability to be in more than one place at once so I don't miss anything!

TECH TIP OF THE MONTH

Stay Alert for Phishing During Tax Season

As tax season approaches, phishing attempts tend to spike. Here's what to watch for and how to stay secure:

Common Phishing Tactics

- SMS messages with suspicious links
- QR codes in unexpected emails or texts
- Phone calls where no one speaks on the other end

What You Can Do

- Pause before you click: Verify links and QR codes before scanning.
- Ignore silent calls: If no one responds, hang up immediately.
- Report suspicious activity: Forward phishing attempts to your IT security team.

Extra Reminder

If you receive unexpected Authenticator push notifications, do NOT approve them. This could be a sign of an attack. Contact IT support right away.

Stay vigilant and help keep our systems secure!
